CLASSIFICATION OF PROPERTY FOR PURPOSES OF TAXATION

15-8-111. Assessment — market value standard — exceptions.

(1) All taxable property must be assessed at 100% of its market value except as provided in subsection (5) of this section and in 15-7-111 through 15-7-114.

(2) (a) Market value is the value at which property would change hands between a willing buyer and a willing seller, neither being under any compulsion to buy or to sell and both having reasonable knowledge of relevant facts.

(b) The market value of all motor trucks; agricultural tools, implements, and machinery; and vehicles of all kinds, including but not limited to motorcycles, aircraft, and boats and all watercraft, is the average wholesale value shown in national appraisal guides and manuals or the value of the vehicle before reconditioning and profit margin. The department of revenue shall prepare valuation schedules showing the average wholesale value when no national appraisal guide exists.

(3) The department of revenue or its agents may not adopt a lower or different standard of value from market value in making the official assessment and appraisal of the value of property in subsection (1)(a) of 15-6-131 and 15-6-134 through 15-6-140. For purposes of taxation, assessed value is the same as appraised value.

(4) The taxable value for all property in subsection (1)(a) of 15-6-131 and classes four through eleven is the percentage of market value established for each class of property in subsection (2)(a) of 15-6-131 and 15-6-134 through 15-6-141.

(5) The assessed value of properties in subsection (1)(b) of 15-6-131, 15-6-132, and 15-6-133 is as follows:

(a) Properties in subsection (1)(b) of 15-6-131, under class one, are assessed at 100% of the annual net proceeds after deducting the expenses specified and allowed by 15-23-503.

(b) Properties in 15-6-132 under class two are assessed at 100% of the annual gross proceeds.

(c) Properties in 15-6-133, under class three, are assessed at 100% of the productive capacity of the lands when valued for agricultural purposes. All lands that meet the qualifications of 15-7-202 are valued as agricultural lands for tax purposes.

(6) Land and the improvements thereon are separately assessed when any of the following conditions occur:

(a) ownership of the improvements is different from ownership of the land;

(b) the taxpayer makes a written request; or

(c) the land is outside an incorporated city or town.

(7) The taxable value of all property in subsection (1)(b) of 15-6-131 and classes two and three is the percentage of assessed value established in 15-6-131(2)(b), 15-6-132, and 15-6-133 for each class of property.

EDITOR'S NOTE

The caveat found in previous editions of the "Report" concerning the accuracy of certain items is still in force. In particular, the number of motor vehicles listed in many counties should be treated with skepticism since the staggered registration system has made it almost impossible for an accurate count to be made. More reliable statistics in this area are available from the Registrar of Motor Vehicles.

TAXATION OF MINERALS

Net Proceeds

Montana's net proceeds law provides a special method for assessing the value of mining property. The drafters of Montana's first Constitution and mine tax law recognized the difficulty of valuing the mineral bearing property of the state, and didn't wish to have taxes imposed which would impede the development of the mining industry. Thus, net proceeds, defined as the annual gross value of the product of mines less certain deductions, plus the price paid the U.S. government for the mineral property (\$2.50 to \$20.00 per acre), serve as the measure of the value of mining property and take the regular mill levies of the taxing district in which the property lies. Oil and gas properties, lime rock, gypsum and other quarries and mines, except coal and metal mines producing valuable minerals and stones, come under the provisions of the net proceeds law. The taxable value of the assessment of net proceeds and the price of mining property paid the U.S. government is 100% of market value.

Gross Proceeds

The 1975 Legislative Session enacted a particular method for valuing coal mining property. The gross yield of a mine derived from the contract sales price of the coal produced serves as the measure of value. (Contract sales price is defined as the price of the coal extracted and prepared for shipment f.o.b. mine excluding that amount charged by the seller to pay taxes on production.) The taxable value of gross proceeds is 45% of the assessed value in the case of strip mines and 33 1/3% of assessed value in the case of underground mines. The 1977 Legislative Session changed the method of valuing metal mining property from net proceeds to gross proceeds. Taxable value is 3% of the gross proceeds from metal mines.

Royalties

Royalties from mineral production are also taxable at 100% of market value. In the case of oil and gas, royalties are assessed to and taxes are paid by the operator in behalf of the royalty owner. Other royalties are assessed directly to the owner and taxes are paid by him.

Other Property

The taxable value of machinery, structures and appurtenances is 11% of market value. If the surface ground of a

mine is used for some purpose other than mining it is assessed at its full value and taxable for such other purpose.

License and Severance Taxes

In addition to the property taxes paid on the assessments listed above, mine operators pay certain license and severance taxes to the state. Oil producers pay 5% of the total gross value produced. (After April 1, 1983 — 6%). Gas producers pay 2.65% of the total gross value of production from each well.

Like the oil or gas producers severance tax, the metalliferous mines license tax is also an ad valorem severance tax. Metal mine operators pay .15% of the first \$100,000 of gross product plus one dollar; .575% of the next \$150,000 of gross product; .86% of the next \$150,000 of gross product; 1.15% of the next \$100,000 of gross product; and 1.438% of any gross product over \$500,000 in value.

Coal mines pay a severance tax which depends upon the heat content of the coal and the method of mining utilized. Strip coal mines pay the greater of: 12 cents per ton or 20% of contract sales price on coal rated less than 7000 BTU per pound, 22 cents per ton or 30% of contract sales price on coal rated between 7001 and 8000 BTU per pound, 34 cents per ton or 30% of contract sales price on coal rated between 8001 and 9000 BTU per pound and 40 cents per ton or 30% of contract sales price on coal rated over 9000 BTU per pound. A similar, but considerably lower, set of rates is used for coal extracted from underground mines. The first 20,000 tons of production during each calendar year is exempt from tax.

Cement and gypsum producers pay 22 cents per ton of cement and 5 cents per ton of gypsum. Micaceous minerals (vermiculite, perlite, kerrite, maconite, etc.) producers pay 5 cents per ton of product.

Oil and gas producers also pay a severance tax to defray the expenses of the Oil and Gas Conservation Commission. It is 2/10 of 1% of the market value for each barrel of oil. The same rate applies to each 10,000 cubic feet of natural gas.

Finally, all nonrenewable resource producers pay the Resource Indemnity Trust Tax of \$25 annually, plus .5% of the gross value of their production over \$5,000. The proceeds of this tax will be used for environmental protection and improvement.

APPENDIX A

REVENUE OVERSIGHT COMMITTEE CRITIQUE OF THE DEPARTMENT OF REVENUE'S ACTIVITY

As required in Chapter 458, Laws of 1977, the Revenue Oversight Committee herein presents its critique of the operations of the Montana Department of Revenue during the 1981-83 interim.

The Revenue Oversight Committee held eight meetings during the interim. Much of the Committee's work involved lengthy examinations of the Department's policies and operations -- particularly in the area of property taxation. The Minutes of Revenue Oversight Committee meetings contain the details of the Committee's interaction with the Department. Interested persons are invited to examine the Minutes in the offices of the Legislative Council.

The Revenue Oversight Committee expresses its appreciation to the Department for its timely, cooperative, and helpful assistance to the Committee during this interim. The Department's assistance in various research projects and proposed legislation was particularly useful. In addition, the Committee notes that the Department has shown every indication that it is attempting to improve tax administration management and efficiency in the State of Montana.
